• Profile

I don't see a problem as an obstacle but as a chance to make something better. First I make sure I understand it, then I design and build the right solution, whether that's a web app, an AI agent or an internal tool.

I started in 2015 with an agency internship, moved through graphic design and print, and since 2017 I've been building custom websites, online stores, apps and internal tools. Today I work AI-first: AI gives me speed, versatility and more control; I set the direction. I write code with Claude Code and Codex, and on every project I first ask what it should bring to users and the business. What I don't know yet, I learn fast. And sometimes the best solution is to simplify the process, not automate it.

• Experience

2026	GrandPano , WordPress specialist I build websites for residential development projects from scratch, 1:1 from Figma. I connect them to Realpad (price lists and leads) and tune SEO, visibility in AI search and performance.
2018 - 2026	Denva , AI engineer & full-stack developer Under the Denva name I work directly with clients. I build AI agents, automations and custom MCP servers, plus websites, online stores and apps from first sketch to production.
2017 - 2026	Vibration s.r.o. , Web developer I build and maintain WordPress, from large multisite installs to WooCommerce stores. Alongside that I build store frontends on the Sellio e-commerce platform (PHP Yii, Vue.js).
2021 - 2025	TENENET o.z. , Web developer & IT specialist Four years remote for a non-profit: sites for its projects, the main website and IT support for colleagues.
2016 - 2017	Multimedia s.r.o. , Graphic designer & press operator I designed graphics for print and web and ran the printing presses. That's where my eye for type and detail comes from.
2015 - 2016	Comsultia s.r.o. , Web developer intern HTML, CSS and JavaScript for agency projects. My first sites went live here, and that's where I got hooked.

• How I work with AI	AI writes, I decide .		
	I hand agents the work they do faster than I do: code, tests, research and repetitive tasks. I decide what the product should do, how to build it and whether it's worth building. I always review the result myself.		
	Claude Code & Codex My main development environment. Agents write and test the code; I set the direction and guard the quality.	Agents I build single-purpose agents on the Claude Agent SDK, OpenAI Agents SDK and LangGraph, and combine them into teams that hand work off to each other.	
	MCP servers Custom servers and clients that let AI work safely with WordPress, data and company tools.	Automation Make, n8n, Zapier, webhooks and APIs. First I map the process and cut the unnecessary steps. Only then do I automate it.	
• Skills	AI & agents	Claude Code, Codex, Claude Agent SDK, OpenAI Agents SDK, LangGraph, Multi-agent orchestration, MCP servers & clients, Tool calling, Prompt & context engineering	
	LLMs & data	OpenAI API, Anthropic API, Gemini API, Local models (Ollama), RAG, Embeddings, pgvector, Structured outputs, LLM evals, AI image & video generation	
	Automation	Process mapping, n8n, Make, Zapier, Webhooks & APIs, Cron	
	Frontend	React, Next.js, TypeScript, Vue.js, JavaScript ES6+, Three.js, GSAP, Lenis, SCSS / BEM, Vite, webpack	
	Backend	PHP, Python, Node.js, Hono, WordPress, WooCommerce, ACF Pro, WP REST API, WP-CLI, Yii, MySQL, PostgreSQL, SQLite	
	Infra & quality	Cloudflare Workers, Cloudflare D1, Docker, Git, GitHub Actions, GitLab CI, Caddy, Traefik, Vitest, Playwright, PHPStan, ESLint, Stylelint, Prettier, CodeRabbit, MainWP, Restic, GlitchTip, Uptime Kuma	
• Languages	Slovak (native), English (professional working proficiency)		
• Education	Secondary School of Printing, digital media graphic designer (2012 - 2016)		
• Projects	Denva Second Brain Private project A private AI brain: RAG on pgvector, an MCP server, a Telegram bot and a coding agent	Národný futbalový štadión narodnyfutbalovystadion.sk Bilingual stadium website with automatic event import from Ticketportal	Brixx brixx.cz Residential development site with a live flat price list synced from Realpad Built as an employee of GrandPano.
	Pangeas pangeas.cz Czech slow fashion marketplace on WooCommerce and Dokan with shipping and contracts per vendor	Routie routie.sk Own e-shop: a live map preview and a personalised print from an uploaded GPX route	Monkey Studios monkeystudios.com Four-language site with a 106-frame scroll-driven hero sequence and custom GSAP effects

Rkovacovsky Photo

rkovacovsky.sk

Photographer's portfolio with a self-drawing signature intro and a custom GSAP lightbox

Nová Trnitá

novatrnitaz.sk

New city district site with a newsletter connected to Realpad and its own lms.txt
Built as an employee of GrandPano.

Limo Prestige

limo-prestige.sk

Custom WordPress theme from the supplied design
In collaboration with be-you.sk.

Dermateq

dermateq.sk

36 ACF blocks, a custom content model for technologies and results, critical CSS per template

AK Baltazarovič

akbaltazarovic.eu

Law firm site moved from static HTML to WordPress with a 1:1 visual match

Nora Horváthová

norahorvathova.sk

Campaign site with anonymous suggestions and print materials generated from code

As an employee of Vibration**Slovenský Červený kríž**

redcross.sk

Sadíme budúcnosť

sadimebuducnost.sk
