Profile

I don't see a problem as an obstacle but as a chance to make something better. First I make sure I understand it, then I design and build the right solution, whether that's a web app, an AI agent or an internal tool.

I started in 2015 with an agency internship, moved through graphic design and print, and since 2017 I've been building custom websites, online stores, apps and internal tools. Today I work AI-first: AI gives me speed, versatility and more control; I set the direction. I write code with Claude Code and Codex, and on every project I first ask what it should bring to users and the business. What I don't know yet, I learn fast. And sometimes the best solution is to simplify the process, not automate it.

Experience

2026
GrandPano, WordPress specialist
I build websites for residential development projects from scratch, 1:1 from Figma. I connect them to Realpad (price lists and leads) and tune SEO, visibility in AI search and performance.

2018 - 2026
Denva, AI engineer & full-stack developer
Under the Denva name I work directly with clients. I build AI agents, automations and custom MCP servers, plus websites, online stores and apps from first sketch to production.

2017 - 2026
Vibration s.r.o., Web developer
I build and maintain WordPress, from large multisite installs to WooCommerce stores. Alongside that I build store frontends on the Sellio e-commerce platform (PHP Yii, Vue.js).

2021 - 2025
TENENET o.z., Web developer & IT specialist
Four years remote for a non-profit: sites for its projects, the main website and IT support for colleagues.

2016 - 2017
Multimedia s.r.o., Graphic designer & press operator
I designed graphics for print and web and ran the printing presses. That's where my eye for type and detail comes from.

2015 - 2016
Comsultia s.r.o., Web developer intern
HTML, CSS and JavaScript for agency projects. My first sites went live here, and that's where I got hooked.

How I work with AI

AI writes, I **decide.**

I hand agents the work they do faster than I do: code, tests, research and repetitive tasks. I decide what the product should do, how to build it and whether it's worth building. I always review the result myself.

Claude Code & Codex
My main development environment. Agents write and test the code; I set the direction and guard the quality.

Agents
I build single-purpose agents on the Claude Agent SDK, OpenAI Agents SDK and LangGraph, and combine them into teams that hand work off to each other.

MCP servers
Custom servers and clients that let AI work safely with WordPress, data and company tools.

Automation
Make, n8n, Zapier, webhooks and APIs. First I map the process and cut the unnecessary steps. Only then do I automate it.

Skills

AI & agents	Claude Code, Codex, Claude Agent SDK, OpenAI Agents SDK, LangGraph, Multi-agent orchestration, MCP servers & clients, Tool calling, Prompt & context engineering
LLMs & data	OpenAI API, Anthropic API, Gemini API, Local models (Ollama), RAG, Embeddings, pgvector, Structured outputs, LLM evals, AI image & video generation
Automation	Process mapping, n8n, Make, Zapier, Webhooks & APIs, Cron
Frontend	React, Next.js, TypeScript, Vue.js, JavaScript ES6+, Three.js, GSAP, Lenis, SCSS / BEM, Vite, webpack
Backend	PHP, Python, Node.js, Hono, WordPress, WooCommerce, ACF Pro, WP REST API, WP-CLI, Yii, MySQL, PostgreSQL, SQLite
Infra & quality	Cloudflare Workers, Cloudflare D1, Docker, Git, GitHub Actions, GitLab CI, Caddy, Traefik, Vitest, Playwright, PHPStan, ESLint, Stylelint, Prettier, CodeRabbit, MainWP, Restic, GlitchTip, Uptime Kuma

Languages

Slovak (native), English (professional working proficiency)

Education

Secondary School of Printing, digital media graphic designer (2012 - 2016)

Projects

Denva Second Brain
Private project
A private AI brain: RAG on pgvector, an MCP server, a Telegram bot and a coding agent

Národný futbalový štadión
narodnyfutbalovystadion.sk
Bilingual stadium website with automatic event import from Ticketportal

Brixx
brixx.cz
Residential development site with a live flat price list synced from Realpad
Built as an employee of GrandPano.

Pangeas
pangeas.cz
Czech slow fashion marketplace on WooCommerce and Dokan with shipping and contracts per vendor

Routie
routie.sk
Own e-shop: a live map preview and a personalised print from an uploaded GPX route

Monkey Studios
monkeystudios.com
Four-language site with a 106-frame scroll-driven hero sequence and custom GSAP effects

Rkovacovsky Photo
rkovacovsky.sk
Photographer's portfolio with a self-drawing signature intro and a custom GSAP lightbox

Nová Trnitá
novatrnita.cz
New city district site with a newsletter connected to Realpad and its own llms.txt
Built as an employee of GrandPano.

Limo Prestige
limo-prestige.sk
Custom WordPress theme from the supplied design
In collaboration with be-you.sk.

Chata Mýto
chatamyto.sk
Wellness chalet site with lodging structured data and a custom cookie consent

Dermateq
dermateq.sk
36 ACF blocks, a custom content model for technologies and results, critical CSS per template

AK Baltazarovič
akbaltazarovic.eu
Law firm site moved from static HTML to WordPress with a 1:1 visual match

Nora Horváthová
norahorvathova.sk
Campaign site with anonymous suggestions and print materials generated from code

Zanzara
zanzara.cz
Residential development site with scroll-driven video and a live price list from Realpad
Built as an employee of GrandPano.

LEDpixel
ledpixel.sk
LED wall rental site built 1:1 from Figma, with the match checked by automated measuring

Marani
maranibratislava.sk
Custom WordPress theme from the supplied design
In collaboration with be-you.sk.

Nerina
nerina.sk
Four-language twin chalet site with an automated blog and lodging structured data

Auto Omnium
autoomnium.sk
Three-language BMW dealer site with AI translation of vehicles through OpenAI and CZK prices from the ECB rate

A-Studio
adrianastudio.sk
Interior design studio site with references, smooth animation and a custom gallery

Denva
denva.studio
Four-language site with an automated blog and international SEO

Cherries
cherries.sk
Nail studio site selling gift vouchers through Stripe, with a colour configurator

Juraj Mikúš
jurajmikus.sk
Campaign site for a Skalica mayoral candidate with EU 2024/900 transparency notices
In collaboration with be-you.sk.

Slovan Bratislava
slovan.disponea.sk
A custom WordPress order system without WooCommerce, with Stripe and PDF invoices
In collaboration with be-you.sk.

Jaroslav Koštial
jaroslavkostial.sk
One-page campaign site with solutions in dialogs and suggestions per locality

Saunika
saunika.sk
WooCommerce store with a custom theme from the client's design

School of Arts
schoolofarts.sk
Art school site with courses, tutors and a promo system

As an employee of Vibration

Slovenský Červený kríž, 123gold, Lekár.sk, Sadíme budúcnosť, Online žiak, Elektrárňa Piešťany, Chiptech, Vibration, Zlatníctvo Horváth, Voňavý domov, Tatranský profil, Najkoberce, Tomaflora, Madad
