• Profile

I don't see a problem as an obstacle but as a chance to make something better. First I make sure I understand it, then I design and build the right solution, whether that's a web app, an AI agent or an internal tool.

I started in 2015 with an agency internship, moved through graphic design and print, and since 2017 I've been building custom websites, online stores, apps and internal tools. Today I work AI-first: AI gives me speed, versatility and more control; I set the direction. I write code with Claude Code and Codex, and on every project I first ask what it should bring to users and the business. What I don't know yet, I learn fast. And sometimes the best solution is to simplify the process, not automate it.

• Experience

- | | |
|----------------|---|
| 2026 - present | GrandPano , WordPress specialist
I build websites for residential development projects from scratch, 1:1 from Figma. I connect them to Realpad (price lists and leads) and tune SEO, visibility in AI search and performance. |
| 2018 - present | Denva , AI engineer & full-stack developer
Under the Denva name I work directly with clients. I build AI agents, automations and custom MCP servers, plus websites, online stores and apps from first sketch to production. |
| 2017 - present | Vibration s.r.o. , Web developer
I build and maintain WordPress, from large multisite installs to WooCommerce stores. Alongside that I build store frontends on the Sellio e-commerce platform (PHP Yii, Vue.js). |
| 2021 - 2025 | TENENET o.z. , Web developer & IT specialist
Four years remote for a non-profit: sites for its projects, the main website and IT support for colleagues. |
| 2016 - 2017 | Multimedia s.r.o. , Graphic designer & press operator
I designed graphics for print and web and ran the printing presses. That's where my eye for type and detail comes from. |
| 2015 - 2016 | Comsultia s.r.o. , Web developer intern
HTML, CSS and JavaScript for agency projects. My first sites went live here, and that's where I got hooked. |

• How I work with AI	AI writes, I decide .	
	I hand agents the work they do faster than I do: code, tests, research and repetitive tasks. I decide what the product should do, how to build it and whether it's worth building. I always review the result myself.	
	Claude Code & Codex My main development environment. Agents write and test the code; I set the direction and guard the quality.	Agents I build single-purpose agents on the Claude Agent SDK, OpenAI Agents SDK and LangGraph, and combine them into teams that hand work off to each other.
	MCP servers Custom servers and clients that let AI work safely with WordPress, data and company tools.	Automation Make, n8n, Zapier, webhooks and APIs. First I map the process and cut the unnecessary steps. Only then do I automate it.
• Skills	AI & agents	Claude Code, Codex, Claude Agent SDK, OpenAI Agents SDK, LangGraph, Multi-agent orchestration, MCP servers & clients, Tool calling, Prompt & context engineering
	LLMs & data	OpenAI API, Anthropic API, Gemini API, Local models (Ollama), RAG, Embeddings, pgvector, Structured outputs, LLM evals, AI image & video generation
	Automation	Process mapping, n8n, Make, Zapier, Webhooks & APIs, Cron
	Frontend	React, Next.js, TypeScript, Vue.js, JavaScript ES6+, Three.js, GSAP, Lenis, SCSS / BEM, Vite, webpack
	Backend	PHP, Python, Node.js, Hono, WordPress, WooCommerce, ACF Pro, WP REST API, WP-CLI, Yii, MySQL, PostgreSQL, SQLite
	Infra & quality	Cloudflare Workers, Cloudflare D1, Docker, Git, GitHub Actions, GitLab CI, Caddy, Traefik, Vitest, Playwright, PHPStan, ESLint, Stylelint, Prettier, CodeRabbit, MainWP, Restic, GlitchTip, Uptime Kuma
• Languages	Slovak (native), English (professional working proficiency)	
• Education	Secondary School of Printing, digital media graphic designer (2012 - 2016)	
• Projects	Národný futbalový štadión narodnyfutbalovystadion.sk Custom theme, Ticketportal ticket feed integration	Brixx brixx.cz Theme built from scratch 1:1 from Figma, Realpad integration: price list sync and lead delivery, SEO and LLM optimization, performance optimization, GSAP and custom animations
	Pangeas pangeas.cz Multivendor marketplace (Dokan), Stripe Express, Packeta, PDF invoicing	Routie routie.sk Own e-shop: map artworks from GPX routes, 2D & 3D generation, 3D printing

Monkey Studio

monkeystudios.com

Custom WordPress theme 1:1 from the supplied design, GSAP and custom animations, SEO and speed optimization

Zanzara

zanzara.cz

Theme built from scratch 1:1 from Figma, Realpad integration: price list sync and lead delivery, SEO and LLM optimization, performance optimization, GSAP and custom animations

Nová Trnitá

novatrnitá.cz

Theme built from scratch 1:1 from Figma, Realpad integration: lead delivery, SEO and LLM optimization, performance optimization, GSAP and custom animations

Juraj Mikúš

jurajmikus.sk

In collaboration with be-you.sk, design and graphics, custom theme built from that design

Dermateq

dermateq.sk

Custom WordPress, ACF blocks, Vite build, GSAP animations

Saunika

saunika.sk

Custom theme and WooCommerce from the client's design

A-Studio

adrianastudio.sk

Interior design studio showcase, custom theme

Nora Horváthová

norahorvathova.sk

Campaign site for a municipal candidate

Rkovacovsky Photo

rkovacovsky.sk

Custom theme from the supplied design, advanced visual animations, GSAP

Cherries

cherries.sk

Custom gift voucher system, mini nail configurator

LEDpixel

ledpixel.sk

Custom WordPress theme 1:1 from the supplied design, GSAP and custom animations, SEO and speed optimization

Jaroslav Košťál

jaroslavkostial.sk

Built to the client's brief, design, custom theme

Auto Omnium

autoomnium.sk

Car dealer website, custom theme

AK Baltazarovič

akbaltazarovic.eu

Law firm website, custom theme

School of Arts

schoolofarts.sk

Art school website, custom theme
