• Profile

Almost every problem has a solution you can build. Web apps, AI agents and internal tools - fast with AI, and with a sensible approach so they make business sense too.

I started in 2015 with an agency internship, went through graphic design and print, and since 2017 I've been building custom software - websites, stores, apps and internal tools. Today I work AI-first: I write code with Claude Code and Codex, and on every project I first ask what it should bring to users and the business. Whatever I don't know yet, I learn fast. I have yet to meet a reasonable problem that couldn't be solved with the right build.

• Experience

- | | |
|-------------|--|
| 2026 - 2026 | GrandPano , WordPress specialist
WordPress sites for real-estate development projects, custom-built 1:1 from Figma designs. |
| 2018 - 2026 | Freelance , AI & fullstack developer
Under the name Denva I work directly with clients: AI agents, automations and custom MCP servers, plus websites, stores and apps from the first sketch to the server. |
| 2017 - 2026 | Vibration s.r.o. , Web developer
WordPress from large multisite installs to WooCommerce stores, development and long-term care. Plus e-shop frontends on the Sellio platform in PHP Yii and Vue.js. |
| 2021 - 2025 | TENENET o.z. , Web developer & IT specialist
Four years at a non-profit: sites for its projects, the main website and IT support for colleagues. |
| 2016 - 2017 | Multimedia s.r.o. , Designer & printer
Graphics for print and web, running print machines. That's where my eye for type and detail comes from. |
| 2015 - 2016 | Comsultia s.r.o. , Internship
HTML, CSS and JavaScript for agency projects. The first sites that went live - this is where it got me. |

• How I work with AI

AI writes, I **decide**.

I hand agents what they do faster: code, tests, research and repetitive work. I decide what the product should do, how to build it and whether it makes business sense. I always check the result myself.

Claude Code & Codex

My main development environment. Agents write and test the code; I set the direction and guard the quality.

MCP servers

Custom servers and clients through which AI works safely with WordPress, data and company tools.

Agents

On the Claude Agent SDK, OpenAI Agents SDK and LangGraph I build single-purpose agents and put them into teams that hand work to each other.

Automation

Make, n8n, Zapier, webhooks and APIs. I map the process and cut the useless steps first, then automate it.
